

LHP Professional Variable volume Pipettes

Seven digital models cover the range from 2ul to 5000ul.

Volume lock design prevents inadvertent volume change.

novel hand grip shape reduces the horizontal grip.

Suitable for one-handed operation

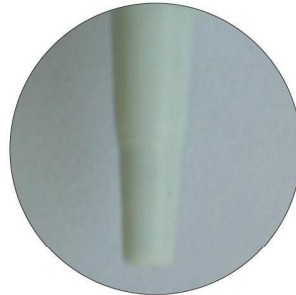

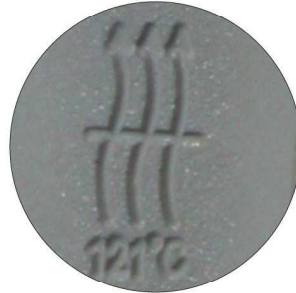

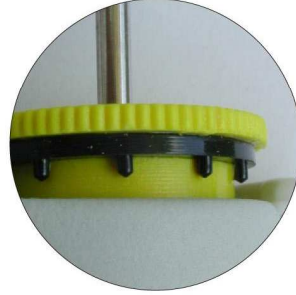

Whole pipette is autoclavable at 121 °C.

Fills and empties the liquid fluently.

The slim design shaft allows easy access and pipetting from narrow diameter vessels.

To prevent corrosion, the tip ejector is all polypropylene.

Fits most major manufactures' tips.

LHP P series pipette, adjustable, autoclavable

Cat.No.	Model	Volume(ul)	Subdivision (ul)	Inaccuracy	Imprecision
1003001	P2	0.1-2	0.002	12-1.5%	6.0-0.7%
1003002	P10	1-10	0.02	2.5-1.0%	1.25-0.4%
1003003	P20	2-20	0.02	5.0-1.0%	1.50-0.3%
1003004	P100	10-100	0.2	1.8-0.8%	0.5-0.15%
1003005	P200	20-200	0.2	1.0-0.8%	0.5-0.15%
